## The Wedding Dress

Emphasize your personality

**O**ne can dream of this or that model seen in photo in the fashion magazines or in the window of a specialized store, but nothing is worth a dress that emphasizes the personality. You have to recognize yourself as much in the shapes, lines or cut of a given model, but especially to ensure that it matches you.

**T**here are mainly four types of dresses for the wedding: princess models, empire dresses, scabbard dresses or siren and finally, short designs. Within these different categories, many variants are proposed by designers and fashion designers. They mainly concern the forms of the bustier, the presence or not of pleated effects or the ornaments, such as lace, pearls or rhinestones. You will usually be advised of this type of dress according to your morphology: the sheath dresses, for example, highlight the shapes and refine the silhouette, but do not let any defect, while the empire or princess dresses are more versatile and easy to wear. But it is equally important: the wedding dress should emphasize your style, which will allow you to feel it in beauty.

# Trend and Timeless ! The Bun

**T**he bun is a must. Timeless and always trendy, it is a classic hairstyle. Practical and easy to make, the bun is an all-terrain hairstyle for holidays, for sports or for the office. That does not make a hairstyle at a discount though! The chignon offers multiple variations depending on the occasion. For a romantic evening, opt for the braided bun. For a sober and refined look, bet on the twisted bun. And for a stricter hairstyle adopt the top bun.

**T**he advantage of the bun is that it can be displayed in different shapes, depending on the haircut. Chignon bun inspired by parade hairstyles, a fan chignon for a structured cut, a banana chignon for the retro side or in the form of a shell for a rock'n'roll version, it adapts to all styles and all the hair. The bun also remains a must for a wedding day. Future bride or single guest, this hairstyle is ideal to play the card of elegance.

TRIP

# CANADA : STAR 2017

**C**anada is celebrating 2017. The country is celebrating its 150th anniversary this year and is opening its national parks for free. From the vast ski area of Whistler, British Columbia, which can be enjoyed until June, to the ever more modern and warm city of Montreal, Canada is rich in its diversity. Marco Vasco offers a 12-day “Splendor of Eastern Canada” experience from Toronto to Quebec City via Ottawa and Montreal. The icing on the cake is a helicopter overfly of Niagara Falls. For an even more wild experience, the train journey “Rocky Mountaineer, from the Rockies to the Pacific” promises a perfect digital detox.

# SWITZERLAND : BACK TO WILD

**S**witzerland is betting on returning to wild. The Swiss Alps are expected to attract lovers of the outdoors this summer thanks to a consolidation of rental offers for 250 chalets. These “mountain huts” can be booked online on a single platform, as early as spring. Ideal for a family trip by car, bike or on foot.
