# Coats

To ward off  
the Winter

**B**y definition, the coat has been created to guard against the weather, it is also for this reason that the coat stands out as the best companion of our cold winters! Major part of our dressing the coat is often the element of a wardrobe the most difficult to choose. And yes, the coat is the first thing available to the eyes, the lack of taste is not allowed.

**What form of coat is made for me? Will he go with the rest of my wardrobe? Will it be out of fashion next winter? No detail should escape you!**

**The color, the material, the cut, nothing should be left to chance and as there is a huge choice of coats, we have concocted especially for you a selection of items that will guide you in the quest for the perfect coat. You will be perfectly accompanied for this winter. Caban, gabardine, trench coat or parka ... make your choice!**

# All Style ! The Short Hair

**W**ant to change your look ? Why not be tempted by the short haircut! Boyish way, short square or pixie, the court is ultra trend, not to mention the practical side. But whoever says short hairstyle does not mean hairstyle without any style. On the contrary! The hairstyle ideas for short haircuts are not lacking. Your hair can be more or less short and you can play on the gradients to give movement. Also bet on the fringe: tapered, long or short, it has made a smashing comeback in recent months.

**W**e can also play on the color of short hair, from platinum blond to raven black, through the locks and other more original permanent. Finally, you can style a haircut short of a thousand and one ways: hair harmoniously ruffled, perfectly combed, with a line in the middle or side, plated on the head or even in brush!

TRIP

# GEORGIA : SPECTACULAR LANDSCAPES

**W**ith its spectacular landscapes and its capital, Tbilisi, sacred new spot-to-be, Georgia promises to be the center of attention in 2017. Not only because benevolence remains a key value, but also because the country is full of natural treasures: green countryside, sublime mountains overlooking the Silk Road, charming vineyards ... With a bonus cultural heritage and dense architecture, ranging from troglodyte caves to naïve works of Niko Pirosmani.

# FINLAND : NORTHERN LIGHTS

**F**inland will celebrate in December the centenary of its independence: the festivities will be grandiose. The new Hossa National Park - between forests, crystal clear lakes and painted rocks - embodies the nature and adventure dimension of the country. Helsinki, the capital, is less than three hours flight from Paris. "Reindeers, rafting and wooden chalet" offer a beautiful discovery of the country, with both Helsinki and Lapland.
