BARBIE OF THE
MONTH

ALICE

This young 22-year-old model from Jordan with very clear green eyes has strong arguments to make talk about her. Already finalist of the last contest “most beautiful face of Barbie 2018”, she will certainly continue to shine on upcoming international events ...

Age : 22 year
Hair : Black
Eyes : Green
Height : 1,80

HandBags

Choose your own style

Find the model for your activities: it is certain that for those who go out a lot and favor chic outfits, the pockets are particularly adapted. They now exist in all shapes, colors and materials to delight fashionistas in summer and winter!

If we look for the pure practical side, when we walk with children for example, the wallet will be perfect, more than a shoulder bag. And as, the latter is ultra trend right now, we do not hesitate a second!

For business women, I advise more shoulder bags, rather large format, square, to store laptop or other professional records. And especially, we do not forget to choose a bag with many storage.

Organizational question, but good often women have two kinds of bags in their closet:

a practical and a more chic!

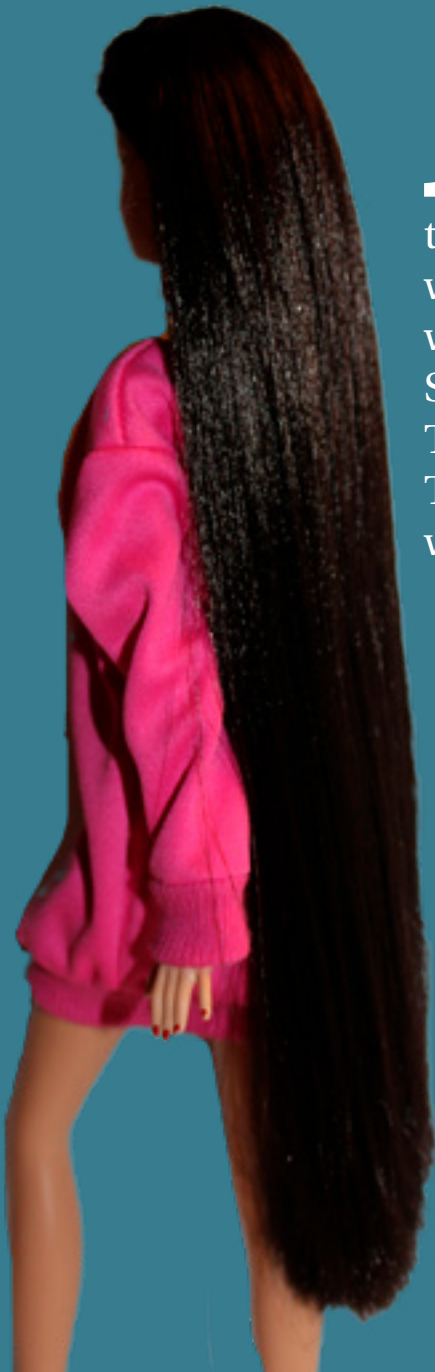

Preferred by Men ? BRUNETTE

Men prefer brunettes. But dredge rather blondes. Such is the strange finding of a study of the British University of Westminster, which has just been published in the Scandinavian Journal of Psychology. “Our results showed that men were more likely to approach our accomplice when she was blonde. But she was much more attractive when she was brown,” write the authors, Viren Swami and Seishin Barrett.

The reason for this paradox? The stereotype of the blonde a bit decerebrate would have been encrusted in the brains of men

Tennis :
WTA Premier 5

Place :
Eastbourne - England

Date :
25th June - 1st July 2018

T

TRIP

CZECH REPUBLIC: PRAGUE

Its historical footprints go back to the Paleolithic, with important traces during the Middle Ages. Today very touristic, the city has many architectural treasures, with its baroque mansions, its constructions of Art Nouveau style, and it enjoys a lively night life.

In addition, its cultural activity is intense, with many concert halls and operas, numerous museums and renowned festivals, such as the Prague Spring. For example, you can visit some must-see sites such as the Charles Bridge, framed by its two towers, the castle and St. Vitus Cathedral, the Old Town Square, the Jewish Cemetery, the Spanish Synagogue, the Wallenstein Palace, and the National Museum

CROATIA : DUBROVNIC, PEARL OF THE ADRIATIC

It is a port city, and a medieval city carrying a very dense history, whose recent events have made much talk and which was first destroyed by an earthquake and then by shelling. Today restored, it has a major tourist activity because of its architectural richness. You can see the famous ramparts, the beautiful pedestrian promenade lined with beautiful buildings, one of the oldest synagogues in the world, the Church of St. Blaise, the convent of the Dominicans, the Palace of Rectors, the 12th century cathedral, but you will also take the time to stroll in the paved streets, and let yourself be charmed by the white stone in which are built fountains and houses, covered also with pink tiles offered by the city of Toulouse, then to visit some museums, by example the Ethnographic Museum, the Maritime Museum, the Museum of War Photography
