Mini Skirt

Sexy and Elegance

In all seasons, women wear this fashion piece with pantyhose and boots in winter or with sandals in summer. The mini skirt comes in a multitude of shapes, lengths, materials and colors to meet all needs. The one that was once an object of emancipation is today a “basic”

For over fifty years, the mini-skirt proudly displays women’s knees and thighs on fashion podiums. To go through the ages without appearing, it has not ceased to be reinvented. Straight, flared, pleated, leather, jeans ... Whatever the model, the mini skirt is now one of the “indispensable” women’s wardrobe.

How to sublimate it! The Fringe

The most important thing to sublimate your fringe and to have a hairstyle always at the top is to dry and style your fringe first. Indeed, we have the unfortunate tendency to smooth first the lengths around the nape of the neck and then gradually ascend to the forehead. Bad idea! For a beautiful hairstyle, start by drying your fringe with a professional hair dryer and a flat brush or a round ceramic brush. To do this, direct the air towards the forehead and stick your fringe at the root with the brush. You then have two styling choices: the straight straight fringe or the wavy fringe.

If you plan to perform a wand smoothing, smooth your bangs only with the hair dryer, and the rest of your hair with the styler® for ultra-smooth rendering. If, on the contrary, you have opted for a more natural and wavy hairstyle, dry your hair to the diffuser being careful not to direct the air up. To get a slightly wavy fringe, always point the air down, and twist the lengths of your fringe like a ribbon around the finger to give a little shape without accentuating the volume.

TRIP

Mongolia : AUTHENTIC and WILD ?

The vast landscapes of Mongolia are emptied: the rural exodus swells Ulaanbaatar, the capital, which concentrates more than 60% of the population. In terms of tourism, the future international airport of Ulaanbaatar could change everything for this authentic and wild country. Tuul - a local French-speaking guide - and Ludivine, a fugitive who fell in love with Mongolia, founded an agency in Ulaanbaatar. Esprit Mongolie proposes to discover the country in 4 x 4, on horseback or on foot, from June to September, in circuits of 2 or 3 weeks.

Cyprus - Paphos : CAPITAL OF CULTURE

Paphos, on the south-west coast of Cyprus, will be European Capital of Culture. The program logically built around myths and travels. Many French artists, including Fanny Ardant, will be on the theater or dance theaters this summer. All this corner of the island is a marvel. Just next to Paphos, the village of Geroskipou - in ancient Greek Hiero Kipos, which means "sacred garden" - is famous for its delights: the famous loukoums of Cyprus. An opportunity also to discover one of the best hotels of the world, the Anassa, in Neo Chorio.
