Back to Natural ! Blonde Hair

Naturelles justement, les blondes ne sont pas nombreuses à l'être... surtout chez les stars. Les vraies blondes célèbres qui font rêver les hommes, sont assez rares finalement. Et comme ce qui est rare est précieux, la blonde naturelle (une femme sur 20) fascine.

Pour les femmes qui optent pour la coloration (un tiers des blondes ne le sont pas naturellement), la blondeur incarne l'innocence, la douceur, mais aussi et surtout un atout de séduction sans faille. Elles prennent pour modèle de nombreuses stars, qui pour asseoir leur pouvoir de séduction, n'hésitent pas à se teindre les cheveux.

TRIP

AUSTRIA : VIENNA

Crossed by the Danube, it has a rich history, and its center is classified as World Heritage by Unesco. Its location in the heart of Europe makes it a communications hub.

The city suffers a continental climate with cold and snowy winters, and summers quite hot and sometimes stormy. Its cultural life has given it international renown since the beginning of the 20th century, and many composers have emerged there for several centuries. It also houses important museums, such as the Hofburg with the Sissi Museum and the Emperor's Apartments, and especially the Museumquartier consisting of several sections, or the Liechtenstein Museum and its private art collections.

Here you can admire magnificent monuments: St. Stephen's Cathedral, the Hofburg Imperial Palace, the Opera House, the Albertina Palace, or Josefplatz. Do not miss the Viennese coffee circuit. The city is served by an international airport, and your trips can be done by metro or tram, which form a very dense and very efficient network

Very touristy, it is famous for being one of the most beautiful cities in Europe. On the other hand, a dynamic cultural life makes this city a very attractive place for various categories of visitors. Many sites are worth a visit: the fortifications and the royal castle of Buda, the Parliament and its monumental facade, the Basilica of St. Stephen, the Heroes' Square, the Museum of Fine Arts, the Great Synagogue, the baths, the New national theater, are some examples. Several museums are also worth a visit, be it the National Museum, the Museum of Ethnography or the Museum of Decorative Arts. For your travels, the metro is, with the tram, a perfect means of transport: it is also one of the oldest in Europe. you will not leave Budapest without having tried bathing in the thermal springs, among the dozens that count the city, nor having sacrificed to the boat trip on the Danube, to discover the city from another angle
